

# AYA Yazidi

## Senior Maintenance Technician

Experienced senior maintenance technician with two year's experience in the efficient resolution and prevention of electrical, hydraulic, pneumatic and mechanical problems. With a license degree in industrial electricity, I'm passionate about optimizing operations and keeping equipment running smoothly. My commitment to technical excellence and effective collaboration with teams make me a valuable resource for ensuring the continuity of production processes.

## skills

### Personal

- adaptability
- Analytical thinking
- Team spirit
- Creativity
- Time and stress management

### Software skills

- office365
- Matlab simulink
- Autocade
- Solid & CATIA
- Control xpert
- TIA14
- PL7 PRO
- Marking Builder
- GP PRO
- congnex
- ISIS

### Electrical knowledge

- Basic lectrical concepts
- Electrical ciruits
- Laws of electricity
- Renewable energies
- Reading and desgning electrical plans
- Compatibility
- converts

## LANGUES

- Arabe : Native
- French : High intermediate
- Anglais : intermediate

## WORK EXPERIENCE

### BONTAZ | Maintenance Technician

2022 – Present

- Diagnose and resolve faults quickly and accurately.
  - Minimize production downtime.
  - Carry out preventive maintenance (machine calibration, oil changes, filter changes and oil refills) to extend equipment life and improve reliability.
  - Participate in machine set-up as required.
  - Mastering maintenance management software.
  - Contribute to continuous improvement in the field of maintenance.
  - Maintain detailed documentation of maintenance operations.
  - Transfer and capitalize on information.
- Propose solutions to optimize production and machine safety and performance.
- Use test and measurement equipments.
  - Apply Gemba Walk and line audits, while identifying potential problems and deploying solutions to minimize interruptions.

## TRAINING

### Two-years industrial engineering/ Arab Universty of science

2022 – Present

### License degree indutrial electrical/ Engineering Higher Institue of Technological Studies

2019 – 2022

### Technical baccalaureate / Mohammed Arbi Chammari

2022 – Present

## INTERSHIP

### Final degree project/ Carthage cement

2022 – TUNIS

- Carry out a project to solve production problems in the event of a power cut by generator se installation.

### Case study / Carthage cement

2021-TUNIS

- Realize mini project of a magnetic drum to avoid the passage of metal waste with aggregates

### Initiation/ Bontaz Centre

2020-TUNIS

- Observe maintenance and construction operations, contribute to technical reports and acquire knowledge of electrical safety standards, develop an understanding of electrical components and their roles.

## CERTIFICATION

TOEIC certification

2021

National and Mediterranean refree /WKF

2021-2023

Mastry of grey room standards and practices

2022

First aid / Bontaz

2022

SIX Segma white and yellow belt /6sigma

2024

Electrical Authorization Certificate / Apave

2024

Self defense and VIP protection

2016
