SKILLS

AWS Kubernetes

Ansible Github Action

Grafana & Prometheus

SonarQube Docker

Nexus Python

JavaScript Java

Yaml

LANGUAGES

Arabic
Native or Bilingual Proficiency

French
Professional Working Proficiency

English
Full Professional Proficiency

EDUCATION

Bachelor's degree in Computer Science ISIMM

10/2020 - 07/2023

Monastir

Master in Information Systems Engineering FSM

10/2023 - Present

Monastir

WORK EXPERIENCE

Internship Innotech consulting

07/2022 - 09/2022

Sousse

Achievements/Tasks

- **Talend Data Integration:** Gained hands-on experience with Talend for data extraction, transformation, and loading (ETL) processes.
- **Learned the Basics of JD Edwards (JDE):** Gained foundational knowledge of JDE, including core concepts, modules, and functionalities.
- **Data Profiling and Cleansing:** Assisted in profiling and cleaning raw data from various sources using Talend components.

Internship Mobelite

02/2023 - 06/2023

Monastir

Achievements/Tasks

- **Implemented Hybrid Cloud Solutions:** Developed and deployed hybrid cloud architecture, optimizing operational efficiency with on-premises and public cloud integration.
- **Automated Tasks with Ansible:** Created and maintained Ansible playbooks to streamline routine administrative tasks, saving time and reducing errors.
- **Managed Kubernetes Deployments:** Set up and managed local Kubernetes clusters for efficient deployment and orchestration of containerized applications.
- **Automated CI/CD with GitHub Actions:** Designed workflows to automate build, test, and deployment processes, enhancing CI/CD pipeline efficiency.
- **Monitored Systems with Grafana and Prometheus:** Configured Grafana and Prometheus for real-time monitoring of system performance and health.
- **Leveraged AWS Services:** Utilized AWS services for seamless hybrid cloud integration, enhancing flexibility and resource optimization.

IT Consultant Innotech Consulting

07/2024 - 08/2024

Sousse

Achievements/Tasks

- **Designed and implemented JDE Orchestrator workflows**, automating key business processes to streamline operations.
- **Enhanced JD Edwards (JDE) system functionalities**, developing custom modules to optimize process automation.
- **Led ETL processes using Talend**, managing data extraction, transformation, and loading for structured and unstructured data.

CERTIFICATES

AWS Certified Cloud Practitioner (05/2024 - 05/2027)

Course: Introducing Generative AI with AWS (03/2024 - 04/2024)
